

Measures taken in accordance with the Lifting of the COVID-19 (Novel Coronavirus)
Pandemic State of Emergency Declaration

June 1, 2020
FUKUDA Co., Ltd.

To whom it may concern

Thank you all for your continued support of our products and services.
Our hearts go out to everyone affected by the COVID-19 pandemic. We would also like to express our heartfelt thanks to the medical professionals and all others on the front lines in the fight against COVID-19.

The state of emergency declaration issued by the Japanese Government has been lifted, but further time is likely to be required for the illness to be brought completely under control. Therefore, we will be monitoring the latest information and taking steps when appropriate based on the guidance provided by the Government. Our staff will continue to be available for online meetings, and we would like to encourage customers to use these methods of communication.

Moving forward, we will be taking the following infection prevention measures. Please also find below our domestic and overseas facilities operation status.

◆ **Infection prevention measures**

We will be taking the following steps.

- Our employees will be staggering their arrival times at FUKUDA facilities, wearing masks as standard practice, and having their temperatures checked
- Moving forward, we request that visitors to FUKUDA offices and plants continue to assist us by having their temperature taken, using the hand sanitizer provided, and wearing a mask.

◆ **Japan based activities**

- Our sales offices will be operating with infection-prevention measures in place.
- Our factories are maintaining production, however due to the disruption to worldwide production and distribution networks, some delays will inevitably occur in the receipt of parts and therefore product supply. Although we will continue to make every effort possible, we ask for your understanding in the event that there are delays to our responses, or occasions where we may not be able to meet all requests or inquiries.

◆ **Overseas based activities**

- While the restrictions implemented by the respective national authorities are gradually being lifted, there are still regions where the activities of our overseas offices are constrained. Local subsidiaries continue to be affected in countries where lockdowns and arrangements such as telecommuting remain in place.

We apologize to our customers and business partners for the ongoing inconvenience, but we appreciate your continued understanding and assistance.

Please stay safe throughout this period of continued uncertainty.

For any inquiries about the above, please feel free to contact us by telephone: +81 (0)3-3577-1111
