

# Notification regarding the FM-1061 Multipurpose Flow Tester and the FM-1062 Separate-Component Flow Tester

Issued January 2020

Title	Temporary Suspension of Orders for the Model FM-1061 and FM-1062 Flow Testers
-------	---

To whom this may concern,

Thank you for your ongoing support.

We regret to notify you that orders for the long-running FM-1061 and FM-1062 Flow Testers are being temporarily suspended due to certain components becoming difficult to obtain.

We thank you for your understanding and ongoing support.

## 1. Models for which orders are being temporarily suspended

Product names	Models
Multipurpose Flow Tester	FM-1061
Separate-component Flow Tester	FM-1062

## 2. Reason for temporary suspension of orders

- Production is not possible due to some components becoming difficult to obtain.  
Orders are being temporarily suspended until the parts procurement situation becomes clear.

## 3. Alternative models

\*Please contact a FUKUDA sales office for further details.
